Part IV

PROJECT MK-ULTRA — EXPERIMENT LOG

File Reference: MKU-47F

CLASSIFICATION: TOP SECRET // INTERNAL USE ONLY

Date: [REDACTED]/[REDACTED]/20[REDACTED]

Location: Hughes-Trigg Research Annex, SMU

A. SESSION RECORD

Subject ID: Zero-Seven (Aldridge, Preston)

Age: 21

Background: Financial diversion activity flagged as aptitude marker.

Session #: 47F

Lead Scientist: [REDACTED]

Assistants Present: [REDACTED], [REDACTED]

B. NOTES

*Induced LSD protocol successful.

*Identity partition achieved / Core ego unstable.

*Subject displayed extreme resistance but responded predictably to mnemonic collapse triggers.

*Dissociation threshold exceeded at 11:42:33 CST.

*Recommendation: proceed with Phase Two extraction within 72 hours.

C. INSTRUCTIONS

*Subject directed under trance-state to report to concrete slab at rear of Simmons Hall for relocation & continued monitoring.

*Escort team to intercept discreetly.

*No direct campus interference authorized.

D. ANALYSIS

*Subject shows fragmented cognition, consistent with prior MK-Ultra Phase One test groups.

*Emotional anchors (family, personal memory) suppressed >90%.

*Long-term retention remains unverified.

E. ATTACHMENTS

1. EEG Record 47F:

2. (Insert jagged EEG brainwave chart graphic, annotated "Memory Partition / Instability Window")

3. Psych Notes:

▪ "Loss of name recognition after 03:12 protocol."

▪ "Subject compliance rated 67% under trance-state."

▪ "Residual aggression markers suppressed; emergence risk remains."
